

A Worksession was held Wednesday October 4, 2017, following the Supervisors Meeting. The purpose of the worksession was to discuss the Township's Act 537 Plan.

Anthony Lane and Chris Tomes, from C. S. Davidson, Inc. along with Adams Smith, Tim Hansen, Larry Sterner, Matt Bollinger and Norma Markle were present.

Tim stated that the Township is under pressure from DEP to enact an Act 537 Plan. Rettew was doing the plan but has not shown any progress within the past year. Tim has released them and has requested C. S. Davidson, Inc. come on board to complete this project.

Anthony and Chris stated they have reviewed what has been completed to this point and will come up with a plan. They will get us some sample ordinance for sewer management.

The Board does not want a giant system, and are just looking at servicing the Porter's village. It is possible that DEP is just requiring a plan at this point, that would require pumping current systems on a schedule.

The next step for this will be to set up a meeting with DEP to discuss what they are requiring. Anthony and Chris will be following up with this.

The Worksession adjourned at 8:35 PM.
