Heather, please share this with the supervisors.

I did forward a quote for a swing set replacement, and would recommend the color red to assist in putting some color up on the hill, other than green. Please keep in mind that the quote does not include the chains or cement to set the swing set, but those could be acquired from local vendors. If you wish to have the chains acquired from the same vendor, I can get the quote revised.

I have also started working on getting quotes for replacement picnic tables, made out of metal that can be anchored to the concrete, which are sold by the same vendor as the swing set.

I am still working with my volunteers from Lobar to try to work out dates to begin some work on the concession stand.

Trent
