Subject: Trent's Report

The Porta Potty's have been ordered for this weekends and next weekends baseball tournaments. A lock will need to be placed on them, after they are serviced this week to keep them clean for next weekend.

I have started to reach out to Sod vendors in the region to get information and request pricing for the infield of the 90 foot baseball diamond this fall. Once information and pricing are obtained, I will forward it on for review.

I reached out to Porters Fire Company regarding the potential for Heidelberg Township Parks and Recreation doing a joint fundraiser with them.

If the French drain for the concession stand has been ordered, and a cement saw rented or acquired, work can begin on installing it next weekend. Inspection of the interior wall will be made to ensure no structural damage, need to replace any framing and ability to safely remediate the mold issue.

I have not had the opportunity to make contact to any vendors regarding walking path to the flag poles, or for installing new concrete pads at the concession stand. I have these items on my calendar over the next 2 or 3 weeks.
